NOTE: The American Community Survey is an annual survey administered by the US Census Bureau to a sample of the population. **Figures given are estimates only**, unlike the Census, which collects information about every person and is not based on a sample. Because the ACS uses sample data, each estimate is reported with a margin of error.

Margins of error vary by dataset, and in some cases are very large at small geographies such as the municipality level. Estimates shown here are aggregated over a five-year period and do not represent a specific point in time. Learn more at <http://www.census.gov/acs>.
