

Energy Committee Meeting of 7/13/15

Present: Dan Crean, Pentti Aalto, Bob Samson, Jay Smith, TA David Jodoin. Excused: Dave Sheldon.

Guests: James Garvin, MMIS and Bob Bourque, Planning Board.

Meeting was called to order by Chairman Crean at 6:30 PM.

Motion was made by Jay Smith, seconded by Dan Crean to approve Minutes of 4/13/15. Approved unanimously.

Dan Crean was still waiting to hear from Megan Hoy from Lightec on numbers for the village project. Several other guests were to attend tonight's meeting to discuss the village lighting projects, but all canceled and asked to reschedule. Dan Crean says the LED conversions would lower costs and improve lighting.

There was also discussion about a large scale generating facility, possibly behind Town Hall, Memorial Field or some other town owned land. Also discussed was possible joint efforts with School Department or Water Works. James Garvin and Bob Bourque also commented on the Village Lighting project. Garvin mentioned some long term plans for continuing "Amoskeag type" lighting theme at various parts of Main Street and other parts of the Village area.

Next meeting is scheduled for 7/20/15 at 6:30 PM.

Respectfully submitted,

Bob Samson
