

Pembroke has partnered with the Epilepsy Foundation New England to help keep textiles out of the trash and make textile recycling easier for residents. You can [schedule](#) contact-free curbside pickups for unwanted textiles and small household goods at your convenience.

Use our [declutter & donate checklist](#) to help get you started.

Make Donating Easy With Curbside Pickups

[Scheduling](#) a pickup is easy:

When you're ready to donate, you can reserve a spot on our next pickup route in your area by calling 1-888-322-8209 or scheduling on-line. <https://donateclothes.epilepsynewengland.org/schedule-pickup>

*Residents are asked to bag or box up their items and label each bag/box with "EF".

*On the scheduled pickup date, residents will leave their donations curbside by 7am. From there, we help find recycled items a new home! If it is raining on the day of your pickup, we ask that you double bag your donations to ensure they stay dry.

*Tax receipts are available [here](#).

We accept all textiles, household goods including kitchenware, household linens, small appliances, art, and more! Check out our complete lists of acceptable and non-acceptable items [here](#).

Prefer to drop off your donations.....

Pembroke has 2 textile only collection bins and a book collection bin, located at the Transfer Station 8 Exchange Street, for public use during operating hours. Textile only bins with 24-hour accessibility are located at 120 Pembroke St & 156 Buck St. (***Please do not leave items outside of the bins***)

At the Epilepsy Foundation New England Donation Center, we strive to make lives easier:

That's why we're partnering with the Town of Pembroke: to make it easier than ever for residents to recycle their used items, keep textiles out of landfills, and continue our mission to fight epilepsy and seizure disorders.

Give Back To Your Community With Every Donation

Did you know that 1 in 26 people will develop epilepsy in their lifetime? Epilepsy Foundation New England was founded to improve the lives of those individuals and families impacted by epilepsy—providing help for today and hope for tomorrow.

With us, your donations do more. Together, each pickup scheduled by residents will accomplish three important goals:

-  Giving back to your town with every pound of items donated
-  Supporting our mission to help people with epilepsy across New England
-  Recycling textiles and keeping usable items out of landfills
