

Town of Pembroke Master Plan

Agricultural Soils

October 2004

Disclaimer for Soils Information:
This Merrimack County Soils GIS coverage was produced by the USDA, Natural Resources Conservation Service (NRCS). It is a draft product and is being made available as a conditional interim release. It is subject to change and not finalized or deemed official for public distribution. This data is being distributed to Planning Commissions only and should not be distributed to others. Data users are responsible for obtaining the most current copy of the data. This data was compiled at a scale of 1:24,000. Delineations depict the dominant soils occurring on the landscape at that scale. Inclusions of other soils too small to be delineated are present within delineations. There is no information on the specific locations of inclusions within delineations. Enlargements of these maps to scales greater than 1:24,000 is a misuse of the product and can cause misunderstanding of the detail of mapping. If enlarged, maps do not show the small areas of contrasting soil that could have been shown at a larger scale. This soil information and interpretations derived from it are intended for broad planning purposes only. For site specific information, onsite sampling, testing and detailed studies are necessary. For further information, contact the NRCS State Soil Scientist, Steve Hundley at (603)868-7581.
